

Creating an account in PowerSchool Parent Portal

What is PowerSchool?

PowerSchool is our student database. It is suggested that all families create an account in PowerSchool . Each parent may create their own account if desired, and each account can have multiple students attached to it. You will be able to check homework assignments, see your student's grades and view students attendance and much more.

How do I create a PowerSchool?

You can contact the Counseling Office with an active email by calling the Counseling Office Secretary at 508-869-2333 x-2116 or sending an email directly to besposito@bbrsd.org. Please indicate your name, your student (s) name and current grade. Once you have provided an active email, you will receive an email indicating your username and password. You can then click on the attached link and login to your account. Once you are in, you will be promoted to reset your password. Please keep track of the Username and Password that you create as you will need it each time you need to log into the PowerSchool. This Username and Password will stay active until your child graduates or transfers from Tahanto Middle/High School. As a helpful tool, anything you see in blue, you can klick on and it will provide you with more detailed information about your child's grade or dates of absences.
